WATER-SUPPLY DIVISION.

Abstract Notification.

The attention of the public is invited to the notice in the *Mysore Gazette*, dated the 29th April 1920, calling for tenders up to the 18th May 1920, for the supply of levels, tapes, etc., required for use of this Division, particulars of which can be had from the undersigned on application.

Abstract Notification.

The attention of the public is drawn to the notice in the *Mysore Gazette*, dated the 13th May 1920, calling for tenders for the supply of "Sulphate of Alumina" of good quality up to the 31st May 1920, published on pages 255—256, Part VI of the *Mysore Gazette*, dated 29th April 1920.

Abstract Notification.

The attention of the public is invited to the Notification, dated the 6th May 1920, calling for tenders for the supply of materials required for the Water-Supply Division, for the half-year, *viz.*, 1st July to 31st December 1920, up to the 22nd May 1920, published in issues of the *Mysore Gazette*, dated the 6th, 13th and 20th May 1920, respectively.

1. Notice is hereby given that sealed tenders will be received up to the 15th June 1920, for the supply of uniform, etc., to the different pumping stations attached to the division, for the year 1920-21. The probable number of uniforms, etc., required for each pumping station is noted in a separate statement. These quantities are not guaranteed, but may be 10 per cent more or less at the time of ordering for same from successful tenderer.

2. The tender should be accompanied by a deposit of Rs. 250 in cash or Government currency notes as earnest money, and be superscribed "Tenders for the supply of uniforms, etc., for the year 1920-21," in default of which, tenders will be rejected.

3. The final acceptance of the tender will rest with the Superintending Engineer, Sanitary Circle, who does not bind himself to accept the lowest or any tender or assign any reason whatsoever for the rejection of any tender.

4. Within a week of the acceptance of any tender, the successful competitor will be required to execute the usual contract bond; one of the conditions being that the supply will be completely delivered by the 15th September 1920, in default of which, his tender will be considered cancelled, and his earnest money forfeited.

5. The name of the successful competitor will be posted on the notice board in the Executive Engineer's office in due course. No enquiries regarding the acceptance or rejection of any tender, will receive attention.

6. The supplies of materials will be seen by the Executive Engineer in his office between 1 and 5 P.M., on office days. The uniform should be complete with buttons and rings in every respect and the cut and stitching should be up-to-date. The uniforms should be delivered at the respective pumping stations. Each station's supply should be brought to the Executive Engineer at his office for inspection and approval before the articles are delivered at different stations. The quality should be the same as that of the samples shown and approved of. Should there be any difference in any of the prepared articles and the approved samples, the contract is not only liable to be cancelled, but the earnest money forfeited and the party will be made liable for any extra cost that may be involved in purchasing them elsewhere.

7. The successful tenderer is required to take the measurement of the uniforms, etc., at the pumping stations where the parties are and have such measurements certified by the Superintendent concerned as to their correctness and this should be produced along with the finished ones, brought for inspection and approval before delivery to the station concerned.
